

Personal Year 22 Reflection Worksheet

Theme: Master Builder

What is the larger vision I feel called to build toward this year?

How can I break that vision into clear, practical steps?

Where do I need more discipline or structure to support my goals?

What resources or systems will help me create a stronger foundation?

What helps me recharge so I can sustain my long-term efforts?

Where might collaboration or partnership expand what's possible?

What practical habits or routines help me stay on track with big goals?

What would it look like to build something that benefits both me and others?

What small wins can I celebrate along the way to keep motivated?
